Yogyakarta, Indonesia

I'm a Software Engineering student at Universitas Gadjah Mada passionate about building impactful digital solutions using React, Next.js, Laravel, JavaScript, and TypeScript. I've worked on projects involving API integration and UI/UX collaboration, improving system efficiency and usability. I'm focused on growing as a full-stack software engineer who delivers scalable, user-centered applications.

Work Experiences

Universitas Gadjah Mada - Yogyakarta, Indonesia	Aug 2025 - Present
Assistant Lecturer - Proyek Aplikasi Dasar	
<ul style="list-style-type: none">Guided 3+ student's developer team in mastering the fundamentals of application development, from planning to implementation.Provided weekly technical sessions on tools, programming logic, and debugging, improving student code quality by 30%.Evaluated and gave feedback on 3+ student projects, ensuring consistent progress and project completion rates above 90%.	
Novaren	Aug 2025 - Present

Frontend Developer	
<ul style="list-style-type: none">Developed and launched APIIKS, a mood-tracking web app used by 100+ students to help school counselors monitor emotional well-being, improving reporting efficiency.Built a custom CRM system for PT Inviro, streamlining client data management and automating communication workflows, which reduced manual tracking time.Collaborated with a cross-functional team of 3 (backend developers and UI/UX designers) to deliver responsive, accessible, and user-friendly interfaces, ensuring consistent performance across devices and browsers.	
Semesta Data Digital - Yogyakarta, Indonesia	Mar 2025 - Jun 2025

Freelance - Frontend Developer	
<ul style="list-style-type: none">Developed and deployed a responsive company profile website that effectively showcased the company's services, values, and portfolio, resulting in an increase in client inquiries after launch.Integrated modern frontend frameworks and reusable UI components, enhancing development efficiency and ensuring consistent design across all pages.Collaborated closely with key stakeholders and content teams to align visuals, branding, and copy, ensuring a consistent and professional digital presence.	
Semesta Data Digital - Yogyakarta, Indonesia	Mar 2025 - Jun 2025

Education Level

Universitas Gadjah Mada - Yogyakarta, Indonesia	Aug 2023 - Nov 2027 (Expected)
Bachelor of Applied Computer - Software Engineering, 3.78/4.00	
SMA Negeri 3 Salatiga - Salatiga, Indonesia	Jun 2020 - Jun 2023
Senior High School, Mathematics and Science	

Organisational Experience

Association of Software Engineering Technology Students - Universitas Gadjah Mada	Mar 2024 - Present
Leader	
The student association of Software Engineering Technology at UGM, focused on academic, professional, and leadership development through programs, training, and tech-related collaborative activities.	

- Led and coordinated a team of 60+ active members, overseeing strategic planning and execution of association programs.

- Initiated and managed 5+ academic, professional, and community-based initiatives, enhancing members' technical and leadership competencies.
- Collaborated with university departments and external tech communities to expand learning and networking opportunities for students.

Komunitas Mahasiswa TIK - Universitas Gadjah Mada

Feb 2024 - Present

Head of UXGAMA Division

A student community at UGM focused on information and communication technology. The UXGama division specializes in user experience (UX) design through workshops, collaborative projects, and digital product development initiatives.

- Directed the UXGAMA division, mentoring 20+ members in user experience (UX) design and digital product development.
- Organized 8+ workshops and mentoring sessions focused on practical UX/UI skills using tools like Figma and usability testing frameworks.
- Facilitated cross-division collaboration to apply user-centered design principles in community-driven projects, improving overall design quality and accessibility.

Gamatiga - Universitas Gadjah Mada

Feb 2025 - Present

Vice Head Leader of Huminfo

A regional student organization for UGM students from Salatiga, focused on fostering community, preserving local cultural values, and supporting personal development through social, cultural, and educational activities.

- Led creative media and content planning to strengthen the organization's communication strategy and public engagement.
- Managed the design and execution of social media campaigns and event visuals, reaching 200+ members and audiences.
- Supported public relations and internal communication initiatives, improving member participation in cultural and social programs.

Keluarga Mahasiswa Teknik Elektro dan Informatika SV - Universitas Gadjah Mada

Oct 2024 - Present

Staff of Human Resources Development

A student organization under the Department of Electrical Engineering and Informatics, Vocational College UGM, serving as a platform for student development, advocacy, and collaboration through academic, social, and organizational programs.

- Assisted in planning and executing 3+ training and bonding programs to enhance member engagement and professional growth.
- Contributed to mentorship and academic support activities for students in the Department of Electrical Engineering and Informatics.
- Supported coordination of academic and social events, improving communication and collaboration among 50+ members.

Google Developer Group On Campus - Universitas Gadjah Mada

Dec 2024 - Jun 2025

Hacker

An official campus-based community affiliated with Google Developer Group, focusing on empowering students with technology skills through workshops, discussions, and collaborative projects in software development and digital innovation.

- Collaborated in a Google-affiliated developer community, focusing on software development and innovation.
- Developed a health information-sharing web application as a frontend developer, increasing access to credible health content for users.
- Participated in development sprints and peer code reviews, strengthening problem-solving and teamwork skills in agile environments.

Skills, Achievements & Other Experience

- Hard Skills** (2025): Ruang Guru Engineering Academy + : AI Automation Mastery
- Hard Skills** (2025): Huawei ICT Academy - HCIA-AI V3.5
- Hard Skills** (2024): Oracle Database Programming with SQL
